amplifier

Better health. One ***voice*** at a time.

Try Pitch

Imagine a **paradigm** shift where predicting disease is possible for **every human on the planet**.

Sounds impossible right?

Try Pitch

Where others focus on what's said

Language Model

- Trained on **words**
- To complete textual tasks

Try Pitch

We're focused on how it's said.

Acoustic Model

- Trained on **acoustics**
- To extract insights about human health

amplifier

Allowing us to non-invasively diagnose, monitor & predict

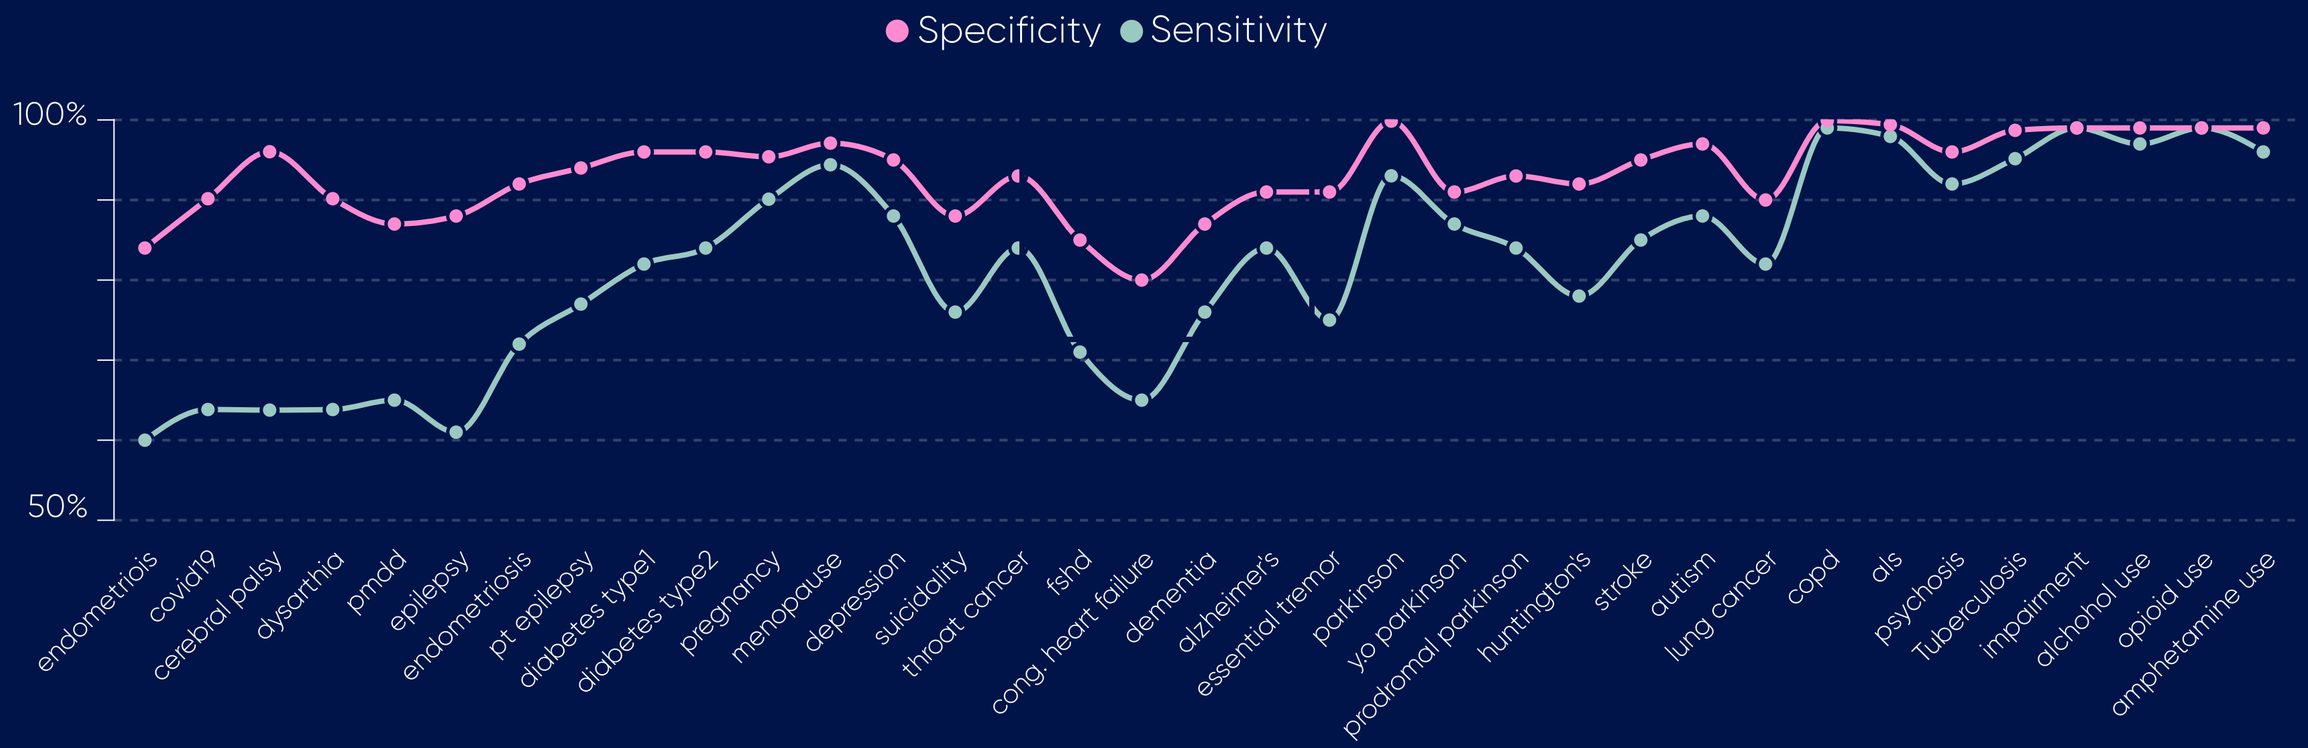
Health biometrics from only the acoustics in a person's voice.

Diagnostics Therapeutics Wellness Fitness - Voice

Try Pitch

Medical Conditions

To date, we've trained our models to detect biomarkers for **35 medical conditions** and counting, with internal performance metrics ranging between **60-99% accuracy** for detecting each condition.



Try Pitch

Wellness Metrics

Using a VAD framework to identify a set of 7 trackable, longitudinal personal health & wellness metrics that out-perform biometric based wearables with a ~**94% accuracy** across all indicators.

Impact of Mental Health on chronic conditions and cost implications- Leveraging data to predict risk

Manu S Bala[2]*, Nisha Dhanabalsamy[2,3], Bill Lucia[1]

Chronic Condition	CC + MI	CC only	% Change	p value
Diabetes Mellitus	$ 4628.22	$ 3073.19	66%	<0.01
A Fib	$6,483.46	$4,039.61	60%	<0.10
Cancer	$6,112.13	$5,024.06	22%	NS
CKD	$17,236.49	$9,299.60	85%	<0.01
CHF	$5,626.02	$4,123.31	36%	NS
GI	$2,632.39	$1,613.00	63%	<0.01
Lung	$1,638.00	$582.00	181%	<0.01
Headache	$6,186.00	$836.00	600%	<0.001
CAD	$2,634.39	$3,647.33	-27%	NS
MSK	$1,951.00	$1,614.00	21%	NS
Average	**$5,611.10**	**$3,419.88**	**64%**	<0.01

Try Pitch

Centers for Medicare and Medicaid (CMS)

On January 18, 2024, CMS announced the ***Innovation in Behavioral Health (IBH) Model***. This created a reimbursement pathway for primary care providers to address this issue in crisis:

The Behavioral Health Integration Program (BHI) allows primary care clinics to bill for identifying patients with comorbidities of mental health conditions, with reimbursement through a dedicated CPT code (99484).

Try Pitch

Creating A New, High-Margin Service Line for FFS Clinics

Representing significant new revenue from identifying and managing at-risk patients through a reimbursable BHI program.

New Revenue

$48.24

CPT Reimbursement

(CPT 99484)

140% ROI

For an average clinic with 2500 patients, this = ~$325k/year in new revenue just from the CPT reimbursement *(plus additional revenue from visits with clinicians)**.***

Try Pitch

The Problem

Screening for **Behavioral Health Issues**

Despite affecting ~40% of the US population, no solutions exist to screen patients for BH risks at scale.

Leaving millions of unidentified Americans to go without critical behavioral care.

Try Pitch

Introducing

Amplifier's BHI Program

Try Pitch

Amplifier's Multi-Modal Insights Engine

Brings **Behavioral Health** into Focus

Screen Via Voice → **Enroll** → **Manage**

Try Pitch

We've Moved from Vision to Commercial Reality.

Flagship Engagement

- Analyzed **1.7 Million** historical patient encounters.
- Monitoring ~**3,000 patients** every day.
- Contracted **$15 PPPM** for BHI program enrollments.

Signed Commercial Engagements

- Agreements with **10 additional enterprise accounts**
- **274 clinical sites** with ~**2.2m+ total patient panels**
- Contracted **$20PPM** for BHI & Cognitive Care programs

Try Pitch

Creating the World's Most Valuable Voice Dataset.

This is our moat; there is **no public repository** for this data. In months, our unique GTM has unlocked **20x** more labelled, gold-standard voice data than any competitor.

	Amplifier Health	**The Rest of the Market**
Data Source	Live, real-world clinical encounters from partners like Carbon Health.	Small, academic studies or expensive, purpose-built trials.
Dataset Size	**1.7 Million+** encounters from a single partner.	<100k samples total.
Cost to Acquire	**Revenue-generating.** We are paid to acquire our data.	Tens of millions in R&D spend.
Clinical Trial Execution	Capital-efficient, leveraging our commercial data flywheel as a patient recruitment engine.	Expensive & operationally complex.

Try Pitch

Why we're the right team to bring voice-based diagnostics to market

We're an experienced, multi-disciplinary team of builders, audio technologists & healthcare leaders.

Amit Mehta, MD

Co-Founder / CEO

- Health Practice Lead at BuildersVC.
- Former founder and CMO, Intrinsic Imaging (Sold to WCG Clinical).
- Residency at Harvard Medical School

Jeremy Barber

Co-Founder / COO

- MIT Founder & 3x Venture Studio Founder
- Builder of Neo Financial (Canada's fastest startup to unicorn status).

Peh Keong

Co-Founder / CTO

- Previous President @ Symend
- Former Product SVP @ Salesforce,
- Former Product Leader @ Oracle Cloud,
- Former Product Leader @ Microsoft Azure

Camille Noufi

Head of AI

- PhD from Stanford Center for Computer Research in Music and Acoustics.
- Former Dolby Labs.
- Former Meta.

Maximillion Mai

Head of Engineering

- Former Director Software Engineering @ LinkedIn.
- Senior Manager, Mobile, @ Yahoo. Head of Engineering @ Ubtech Robotics

Milestones

Setting up for an aggressive 14 month timeline to a growth round and 'Clinical' GTM

2025 Q1

- 8+ Clinical Pilot Studies
- User Flow for Agentic GTM
- Pilot Real-World Data Design

Q2

FUNDRAISING

- Execute Pilot Clinical Studies
- Launch Agentic GTM for Real-World Data
- Onboard existing voice-banks

Q3

- Assess Pilot Studies
- Move to Phase 1 Clinical Trials
- Expand Pilot Clinical Studies
- Launch 2nd Agentic Vertical

Q4

- Execute Phase 1 Clinical Trials
- Launch 3rd/4th Agentic Vertical
- Expand Pilot Clinical Studies

2026 Q1

FUNDRAISING

- Plan Phase 2 Clinical Trials
- Launch 5th/6th Agentic Vertical
- Engage FDA for regulatory approval
